

September 30, 2009

Dear Hearst Families,

I am writing to thank those who came to our parent/guardian facility meeting on Monday, September 21 and to provide you an update on where we are with our facilities.

The District has received a remediation plan from Millennium for the C Building, advertised the protocol, completed the mandatory job walk on September 28 and bids from contractors will be accepted Thursday, October 1. It is the goal to have a bid accepted at the October 13 Board meeting, with work to begin by October 16. Remediation and construction of the C Building will be conducted nights, weekends, student free days and holidays so that it does not interfere with our school day. We hope to have the C Building completed by Winter Break.

In the weeks ahead we will be bringing in one portable restroom and five portables classrooms. These will be located on our playground area behind the C Building. The portable classrooms will be for the following teachers: Mrs. Miller and Mrs. Saah's (first grade), Mr. Bernardi (fifth grade), Mrs. Leonardini (fifth grade), Mrs. Phillips, Mrs. Fellers, Mrs. Muldoon and Mr. Borris (vocal and instrumental music) and Mrs. Kobb (resource). By providing these portables, we will be able to reoccupy our library, science, and technology lab.

I will continue to keep you updated as new information becomes available. If you have any questions please feel free to email them to hearstinfo@pleasanton.k12.ca.us.

Thank you again for working together with me and our amazing staff through this challenging situation.

Sincerely,

Michael Kuhfal
Principal
