

SYLVAN HIGH SCHOOL PROGRAMS

As students enter the critical and challenging years of High School education they often find that they can benefit from Sylvan programs at some point in their academic progress. For your information, we have listed the Sylvan programs offered at Pleasanton Sylvan Learning suited for High School Students. Please contact us if you have any questions about these programs, now or in the future. We will be happy to tell you how Sylvan can help your child continue to succeed at school and in life.

- **SAT/ACT COLLEGE PREP**
For students preparing for college or college entrance examinations, this program provides strategies in math, verbal, reasoning, and critical thinking skills for SAT/ACT success. The program also focuses on effective test-taking strategies.
- **ALGEBRA 1 & 2**
Sylvan's custom-designed Algebra Programs help students to develop or enhance skills in patterns and functions, graphing, mathematical connections, problem-solving, and reasoning. This program is designed for both beginning students and those requiring specific skill enrichment.
- **GEOMETRY**
Designed for beginning students as well as those requiring skills enhancement, Sylvan' Geometry Program helps students develop skills in geometric foundations and reasoning, properties of one dimension and three dimensional figures, and transformations. Students will learn a blend of synthetic, analytic, and transformational perspectives of Geometry.
- **ACADEMIC WRITING**
Designed to improve writing skills, the program teaches the process approach to writing paragraphs, letters, and essays, while stressing the fundamentals of capitalization, punctuation, and sentence building. Editing skills are also sharpened.
- **STUDY SKILLS**
Sylvan's Study Skills Program is designed for students who perform at grade level but need effective study techniques, organizational skills, time management skills, and test-taking strategies. The program includes reading and listening skills as well as outlining, note-taking and test-taking strategies.
- **HOMEWORK SUPPORT**
As assignments get longer and more difficult in high school, it's important that your teenager develops the skills and work habits to independently manage tough homework. Our Homework Support Program can be tailored to fit their needs with learning any missed lessons, extra instruction in class material and concepts, and a solution for a dedicated place and time where a trained teacher can help with assignments. Homework Support covers Algebra 1& 2, Geometry, Trigonometry, Pre-Calculus and Calculus, Biology, Chemistry, Physics, Social Studies and Foreign Language.
- **ACADEMIC READING**
Designed for all students, Sylvan's Academic Reading Program helps students to develop both the basic skills and the higher level critical thinking skills needed for success in reading.
